

ABISHEK Y

Software Engineer | Software Testing (QA) | IT Support
+91 9566172682 | abishekkk31@gmail.com | Chennai, India

PROFESSIONAL SUMMARY

Aspiring Software Engineer (BCA, graduating 2026) with hands-on experience in full-stack development, software testing, and application troubleshooting. Proficient in Java, SQL, JavaScript, React.js, and Spring Boot, with practical exposure to API testing (Postman), debugging, and SDLC-based development. Delivered measurable results during a live internship — improved workflow efficiency by ~20% and cut rework by ~15% through structured, quality-focused engineering. Seeking to apply strong technical fundamentals and a fast learning curve to roles in Software Development, QA/Software Testing, or IT Support.

TECHNICAL SKILLS

- Programming Languages: Java (OOP, Collections, Exception Handling), Python (Basics)
- Web & Frontend: HTML5, CSS3, JavaScript, React.js
- Backend & Frameworks: Java Spring Boot, RESTful API Development
- Database: SQL, MySQL, Database Management, Query Writing
- Software Testing / QA: Manual Testing, API Testing (Postman), Test Case Design, Debugging, Bug Identification & Reporting
- IT Support: Technical Troubleshooting, Issue Resolution, System Debugging, Documentation
- Tools & Practices: Git, Version Control, SDLC, Code Review, Unit Testing

Soft Skills: Problem Solving, Analytical Thinking, Communication, Time Management, Team Collaboration, Adaptability

PROFESSIONAL EXPERIENCE

Software Developer Intern

May 2025 – Jun 2025

CMAC Enterprise Application — Eagle Hi-Tech Soft Cloud Pvt. Ltd.

- Engineered enterprise-grade full-stack features using Java and SQL, applying unit testing and Git-based version control to ensure code quality and reliability.
- Improved workflow efficiency by ~20% and reduced rework by ~15% through SDLC-aligned backend design, structured debugging, and regular code reviews.
- Collaborated with senior developers to identify, debug, and resolve application issues, managed database operations, and supported deployment pipelines in a professional enterprise environment.

Tech Stack: Java, SQL, HTML5, CSS3

PROJECTS

Smart Expense Tracker | React, Java Spring Boot, MySQL

- Developed a full-stack expense tracking web application using React.js, HTML5, CSS3, and JavaScript on the frontend and Java Spring Boot on the backend, with MySQL for persistent data storage.
- Implemented secure user authentication and RESTful API integration between frontend and backend to support real-time expense data handling.
- Performed API testing and debugging using Postman to validate endpoints, verify request/response data, and identify and resolve bugs prior to deployment.
- Applied systematic troubleshooting and error handling across the stack to improve application stability, usability, and overall performance.

EDUCATION

Bachelor of Computer Application (BCA)

2023 – 2026

St. Thomas College of Arts and Science

CERTIFICATIONS

- Infosys Certified Courses — Basics of Python, Object-Oriented Programming using Python
- Microsoft Certified Courses — Artificial Intelligence, Data Science
